SEPTIC FIX

**Reset The Health
of Your Septic Tank**

KEEP YOUR SEPTIC SYSTEM HEALTHY

- Eliminate foul smells
- Stop sludge build up
- Prevent unhealthy leakage

This powerful natural formulation resets the health of septic systems. It removes smells and increases the balance of beneficial microorganisms.

500ML ☐ 1L ☐ 5L ☐

MAINTENANCE – DIRECTIONS

To maintain the health and function of your septic tank simply flush Septic Fix down the toilet. Use the following rates:

- Use 500ml for standard house size septic tank.
- Use 1 litre for larger house tanks.
- Use 5 litres for campgrounds, public toilets. (Pour down diverse toilets).

Add Septic Fix into the septic tank every 6 – 12 months to maintain a healthy septic system.

URGENT SMELL AND LEAKAGE PROBLEMS – DIRECTIONS

If you have smell, leakage or sludge build up problems:

- Double the above rates.
- Apply every 3 months.

This product is distributed by Metagen distributors. Ideal timing, rates and method of application can vary across different septic systems. Consult with Metagen Pty Ltd for any specific situations.
